EDUCATION

Savitribai Phule Pune University, Pune

Aug 2016 – Nov 2020

Bachelor of Engineering | Major: Computer Engineering

WORK EXPERIENCE

Tata Technologies Limited, Pune

Dec 2021 – Present

Developer

- Managed daily database operations, including monitoring performance metrics and troubleshooting issues to maintain 99.9% uptime.
- Developed and optimized SQL queries for data retrieval processes, resulting in a 30% improvement in report generation speed.
- Partnered with DBA team in maintaining SQL Server databases, focusing on data integrity and performance enhancements.
- Supported BAU activities by troubleshooting database-related issues reported by end-users and providing timely resolutions.
- Managed and developed internal web applications with .NET, jQuery, HTML, and CSS by enabling real-time reporting on 25+ shop floor metrics for the MES project's database, improving data accessibility.
- Led deployment activities for database applications in on-premises Windows Server environments, ensuring smooth transitions and minimal downtime.
- Collaborated with cross-functional teams to implement ITIL-aligned processes using BMC Remedy, reducing incident resolution time by 50% and improving change success rate.
- Developed, deployed, and maintained enterprise applications including reporting websites and GE Cimplicity on 20 Windows Server environments, ensuring high availability and performance.
- Managed Level 2/3 application support for critical systems and streamlined ticket resolution, change approval processes via Incident Management and Change Management workflows.

Skills Learnt: .NET, C#, jQuery, JavaScript, HTML/CSS, MS SQL Server, Git, GitLab, Batch Scripting, MS SQL Server, MySQL, PostgreSQL, BMC Remedy ITSM

Skills

- Programming Languages: C++, Java, JavaScript, Python, C#
- Scripting Languages: HTML/CSS, Batch Scripting
- Frameworks: React, Node.js, .NET, jQuery
- Database Management: SQL Server, MySQL, PostgreSQL
- Version Control: Git, GitHub, GitLab
- ITSM Tools: BMC Remedy (Incident Management, Change Management)
- Processes: ITIL Framework, Incident Management, Change Management, Deployment
